ASH GROVE CEMENT COMPANY

"WESTERN REGION"

To: Ken Rone

Date: May 19, 1993

From: Gerald J. Brown

Subject: PSAPCA
FILES

The PSAPCA files on Ash Grove was reviewed again on 5/19/92. The file did not contain any additional complaints than those reported on 4/19/93.

The additional complaints claimed to have been received after April 10 have not yet been added to the file. A check of the Dispatch Room log book by Stella Nehand showed 4 citizen complaints were noted all for visible emission (code 5-A) on the following dates.

4/11/93	11:37 am	
4/14/93	6:43 am	
4/14/93	10:00 am	<i>SAME INCIDENT</i>
4/18/93	7:00 pm	

No further discreptions of the emission were available.

The video tape was not available for viewing since the agency had not been able to obtain a release form the complainant. The agency feels the identity of the complainant will be revealed and must first get a written permission from the citizen to show the tape to us. I expressed our interest in viewing the tape and Tom Hudson will pursue.

No additional requests to view our file have been made by any party other than ourselves.

No additional complaints or problems have been noted by Tom Hudson since 4/18/93.
